

JIRA Issues

<i>Case</i>	<i>Description</i>
CVT-43	Groovy exceptions in test cases. See cases 11327 and 11328.

CVT for the EGM

<i>Case</i>	<i>Description</i>
11327	Groovy exception throws unexpected exception – No such property: fullT3. Test case definition file had a cut-and-paste error. A new unit test was created to verify that this code path is executed during testing.
11328	Groovy exception throws unexpected exception – No such property: handpaySourceRefs. Test case definition file was using isRequest() when it should have been getRequest(). A new unit test was created to verify that this code path is executing during testing.
11337	When the EGM unexpectedly disconnects, the CVT stops responding to eventReports. The CVT's device reset mechanism that brings the EGM back to a known good state was not transitioning the EGM to the idle state. The code has been fixed to transition the EGM to the idle state.
11360	Fix references to "host" in Getting Started with CVT EGM. Cut-and-paste errors were fixed in the document on the CVT portal.
11362	Don't allow deleting the active test session template. Modify the code to not allow the user to delete the active test session template.
11374	Device class is saved as 'G2S_all' and then not editable in the comm config editor. The code to add a new device to the comm config editor did not set the device class and device ID. That has been fixed.

CVT for the Host

<i>Case</i>	<i>Description</i>
11331	CVT host options are not savable. The CVT was throwing an error trying to verify the host ID and auxiliary host ID are proper when saving host parameters when the HostCannotChangeHostID was set to false. The code has been fixed to skip this check when HostCannotChangeHostID is set to false.
11335	Marshalling CVT host surveys causes XML marshalling error. Fixed a typo in the annotation for the host survey objects. A new unit test was added to verify that host surveys can be read and written.
11336	Host survey that are marked as locked are editable. Modify the code to honor the readOnly attribute of the host survey files.
11362	Don't allow deleting the active test session template. Modified the code to not allow the user to delete the active test session template. Don't allow deleting the active host survey. Modified the code to not allow the user to delete the active host survey.
